My design process

- 1 Empathise
- 2 Problem finding
- 3 User scenario
- 4 Mind mapping
- 5 Ideate
- 6 Design

Methodologies

Design thinking
User research
Data visualization
Comparative analysis
Customer journey maps
User personas
Information architecture
User flows
Wireframing
Prototyping
Web accessibility
User testing
Design systems

Tools

Figma · Adobe XD · Sketch
Photoshop · InVision · Illustrator

Education

B.E. Computer Engineering

2013 – 2017

Smt. Kashibai Navale College of Engineering, Pune

Certifications

Human Factors in AI

Duke University | Coursera, Oct 2025

Google UX Foundations

Coursera, Oct 2021

Mangesh Mirajgave

UX Designer

UX designer with 7+ years of experience designing user-centric solutions across Oil & Gas, Energy and Hospitality. I use design thinking to tackle complex business challenges, and I'm familiar with Angular Material, which helps me collaborate closely with developers on modern UI implementations.

Experience

Capgemini – UX Associate Consultant

Sep 2021 – Present

GE | Energy & Power Transmission Web app, Jan 2025 – Jun 2026

Redesigned and unified the Outstation Management, Distribution Management and SCADA modules into one Advanced Distribution Management System (ADMS) for better grid operations.

- Analyzed requirements, created low-fidelity wireframes, ran collaborative ideation
- Built interactive prototypes for usability testing and stakeholder reviews
- Contributed to the design system for consistency across modules

GE Vernova | Website Re-branding Drupal, Mar 2024 – Dec 2024

Redesigned a 1,500+ page B2B website for the rebrand.

- Requirement gathering, reusable components and component library
- Interactive prototype and developer walkthroughs of flows and interactions

SLB | Oil & Gas Web & mobile, Aug 2023 – Feb 2024

Designed the Quest Intelligence event reporting system to improve safety reporting.

- Brainstorming session, heuristic evaluation, user journey maps and workflows
- High-fidelity wireframes, design system work, developer walkthroughs

Brinker International | Hospitality Web & mobile, Sep 2021 – Jul 2023

Reduced friction across Chili's, It's Just Wings and a self-service kiosk using design thinking.

- Brainstorming, journey maps, information architecture
- High-fidelity wireframes, reusable components, interactive prototypes

Baxture Technology – UX UI Designer

Mar 2020 – Sep 2021

Healthcare projects with the CTO, product managers and developers. Designed an HRMS portal and social media creatives.

Salt Technologies – UX UI Designer

Apr 2019 – Mar 2020

Designed WordPress business websites (supply chain, crowdfunding) and Facebook and LinkedIn creatives with the marketing team.

Recognition

- **Certificate of Appreciation** from Capgemini and Brinker leadership for outstanding contribution to Brinker Digital
- **Client thank-you** from Brinker's Marketing Manager for the It's Just Wings and Chili's app and website (Aug 2022)
- **Capgemini eCard** for key contribution and UI-streamlining ideas on the GE ADMS project (Sep 2025)
