02 | PROJECT OVERVIEW

GE VERNOVA | Electrification Software UX

Overview

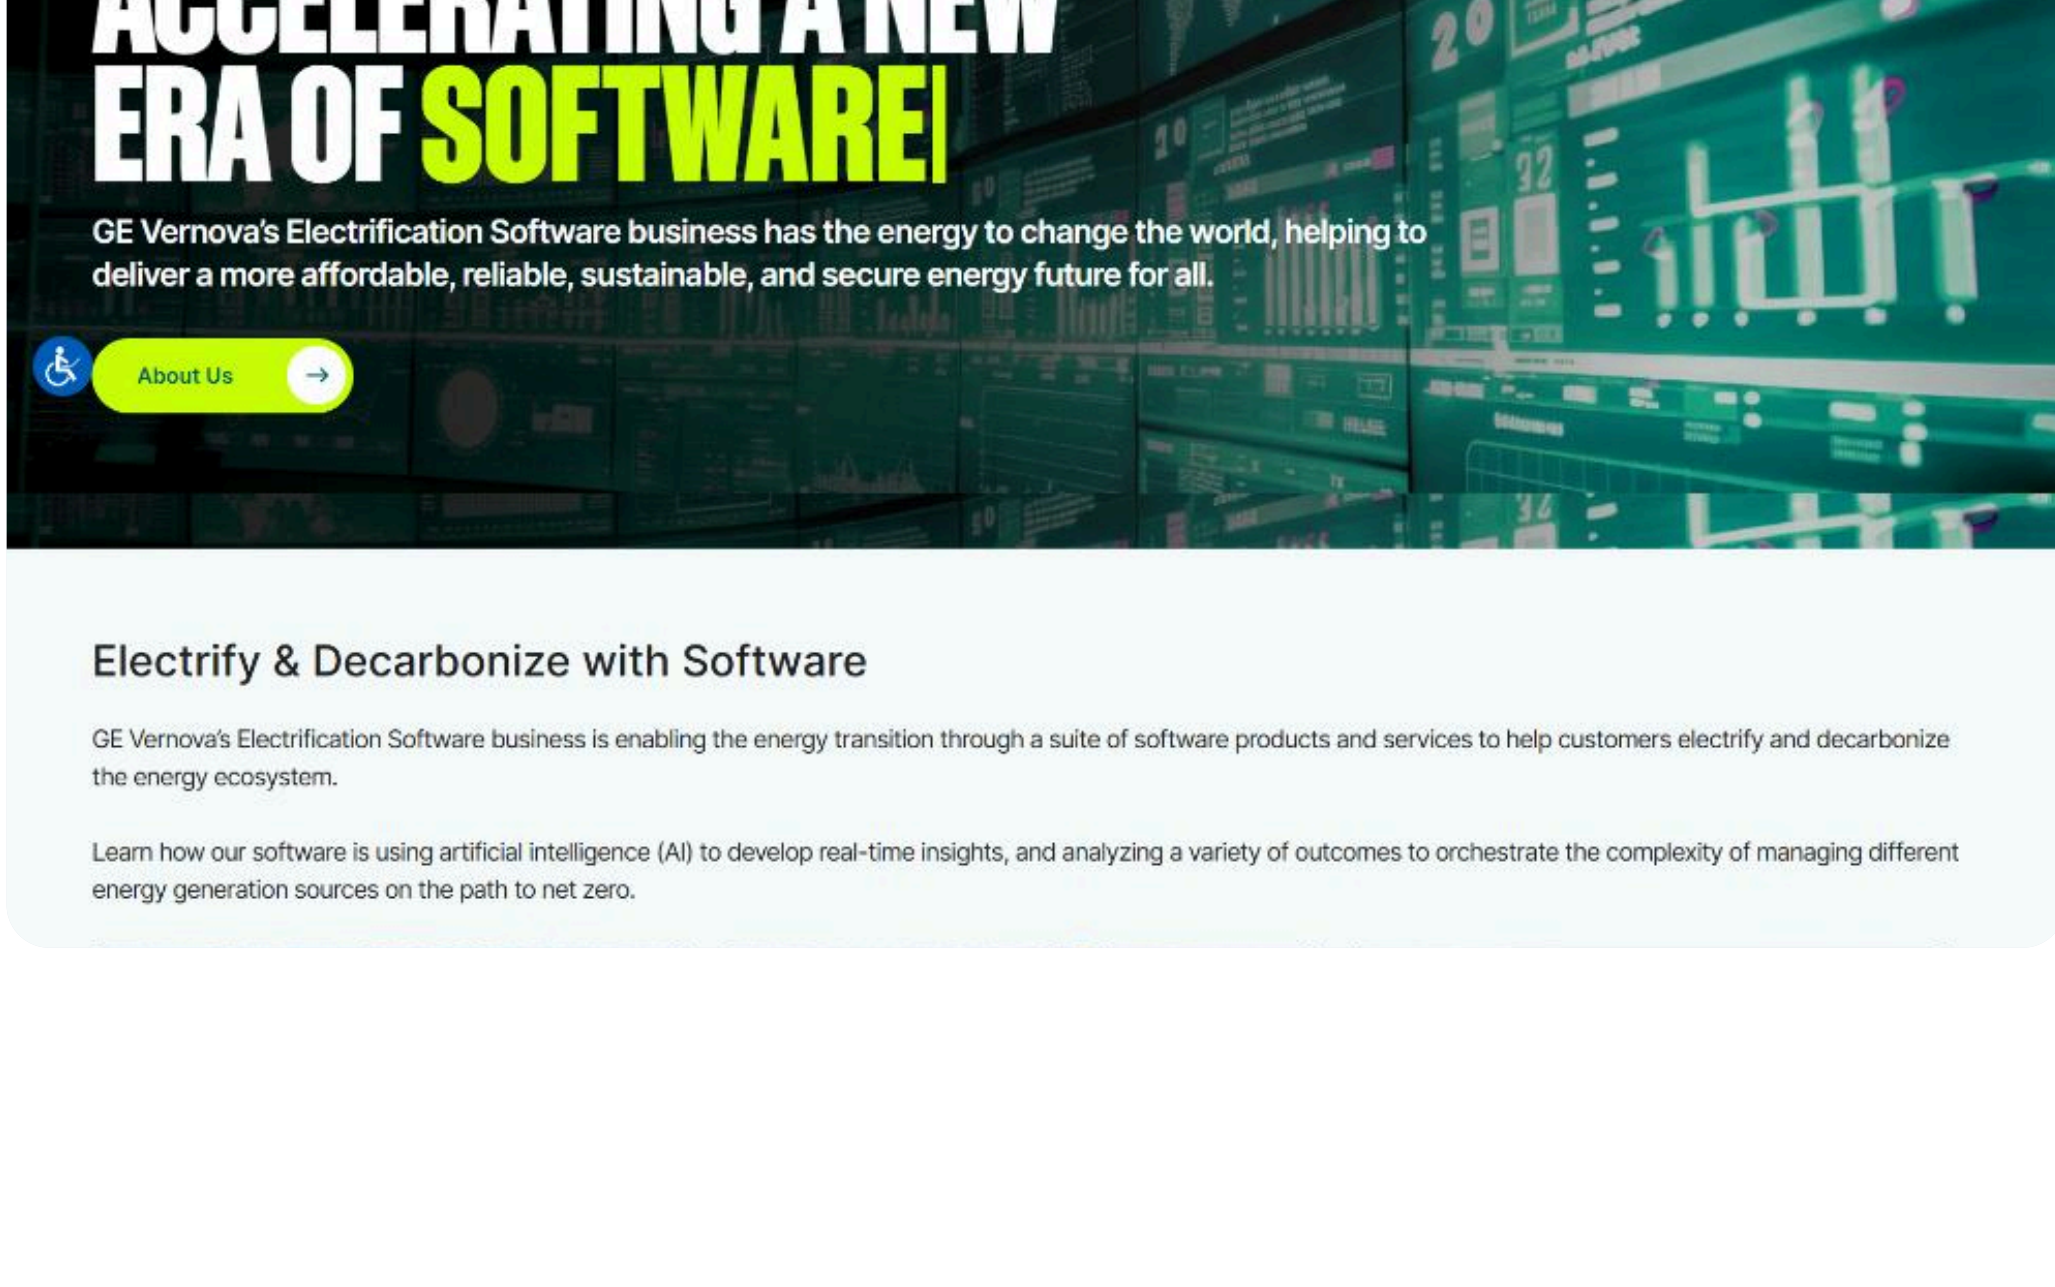

As part of GE Vernova's rebranding initiative, the Electrification Software website was redesigned and migrated to Drupal CMS to create a scalable, consistent, and user-centric experience across 1500+ pages.

RESEARCH ACTIVITIES

- Website Audit
- Adobe Analytics Review
- Navigation Analysis
- Content Inventory
- Stakeholder Workshops
- Drupal Assessment

DESIGN CHALLENGE

How might we create a scalable experience for 1500+ pages while improving discoverability, consistency, and conversion journeys?

03 | RESEARCH & DISCOVERY

GE VERNOVA | Electrification Software UX

Understanding the Ecosystem

Before Designing, We Needed to Understand the Platform

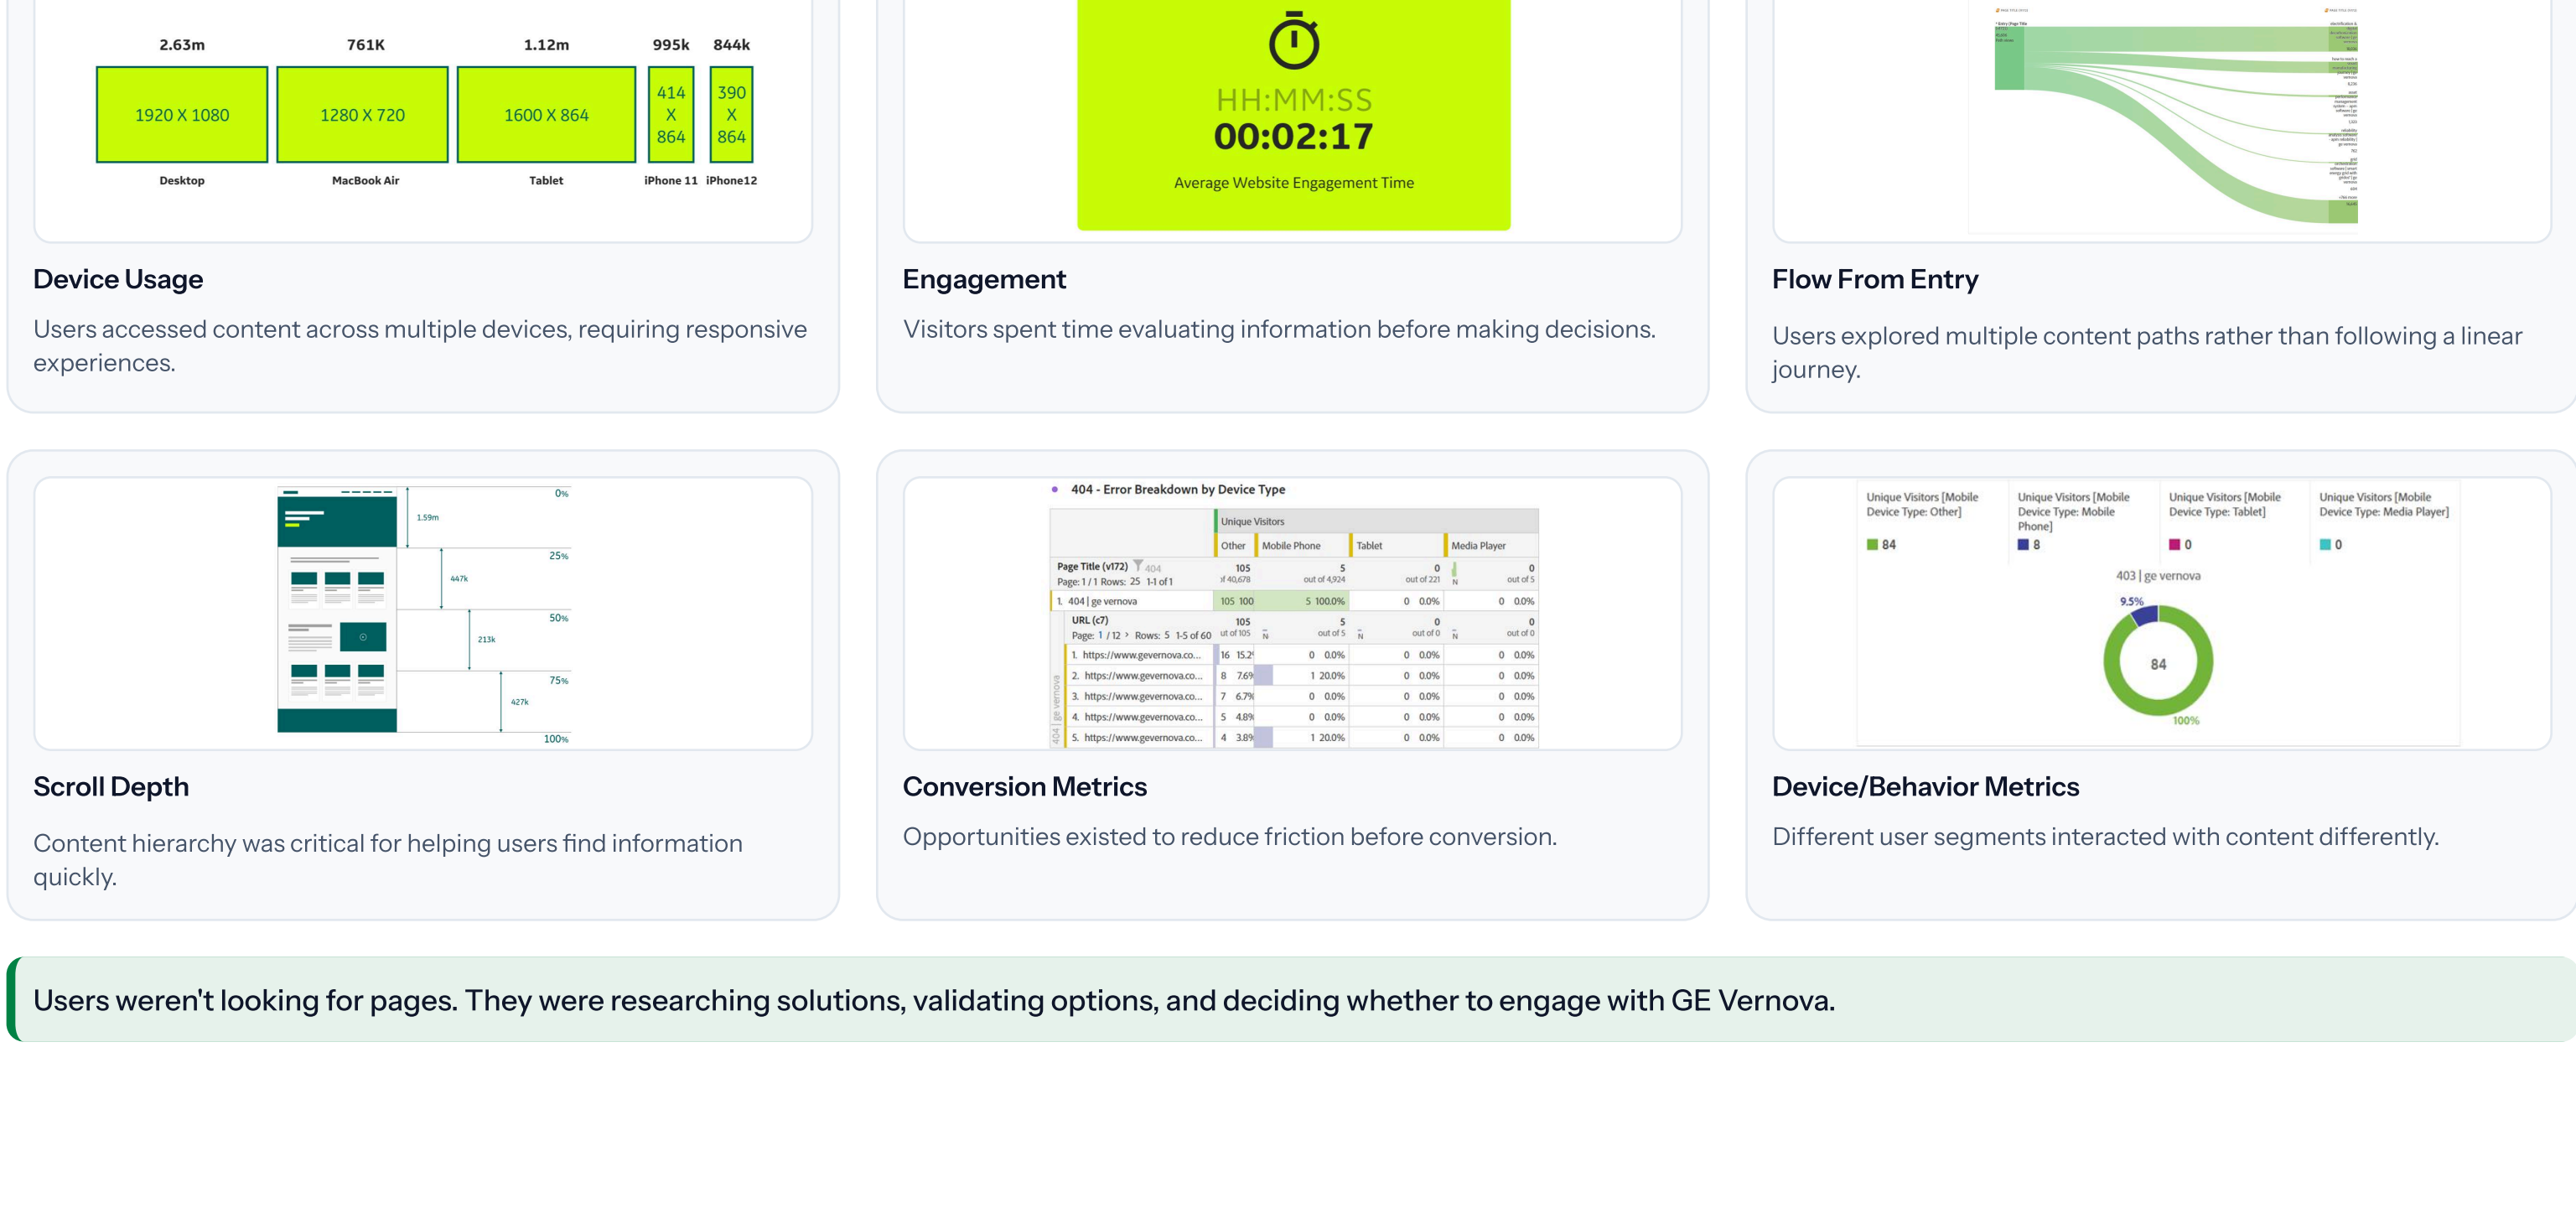

04 | RESEARCH & DISCOVERY

GE VERNOVA | Electrification Software UX

User Behavior

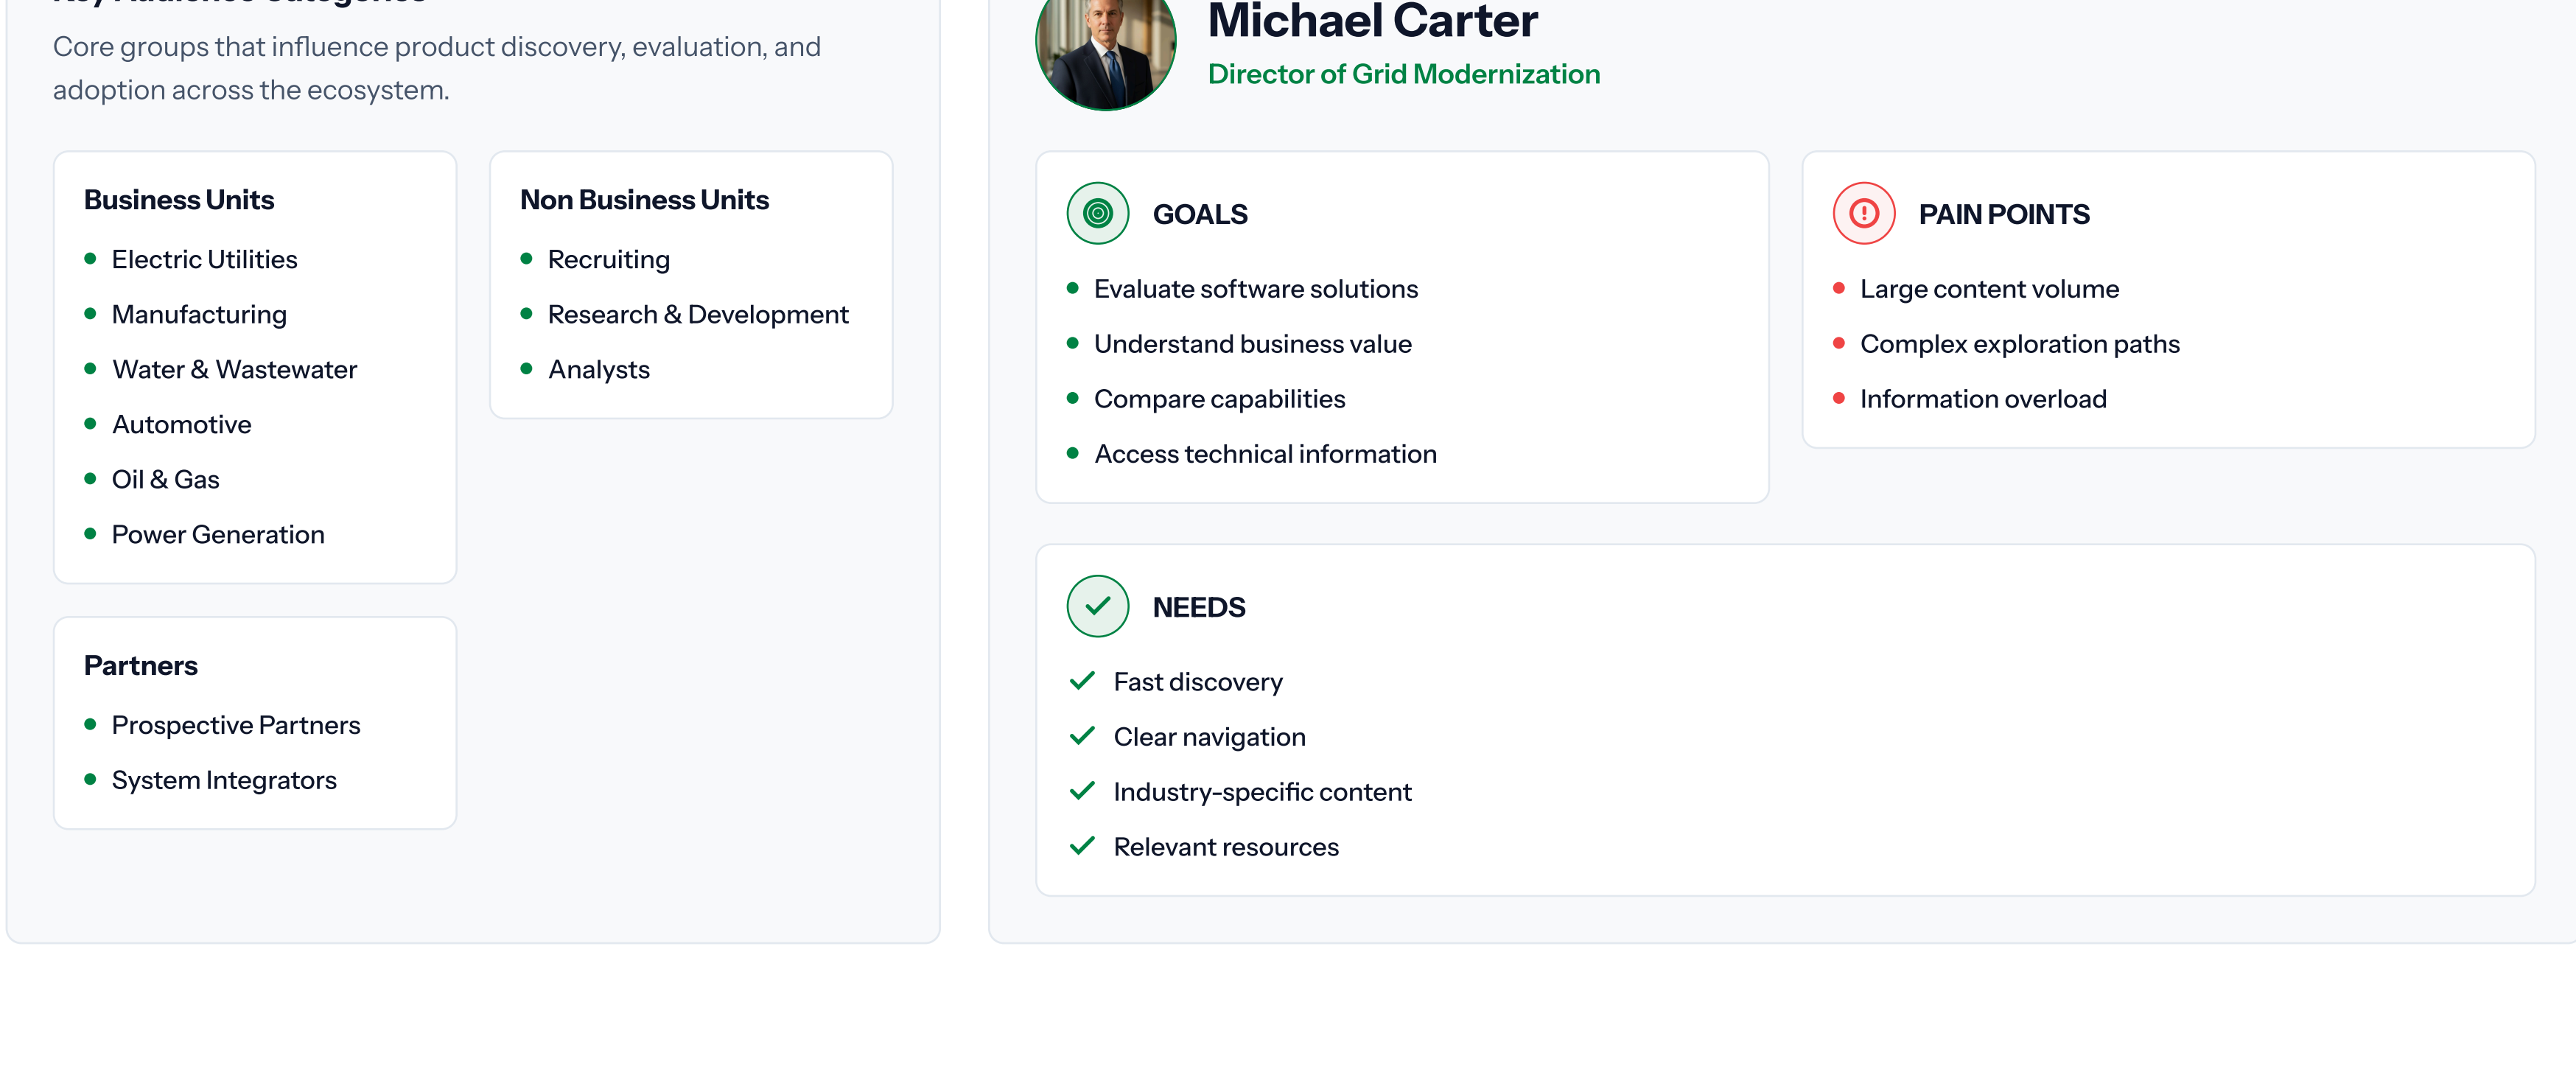

How Users Consumed Content

05 | AUDIENCE & PERSONA CONTEXT

GE VERNOVA | Electrification Software UX

Who We Design For

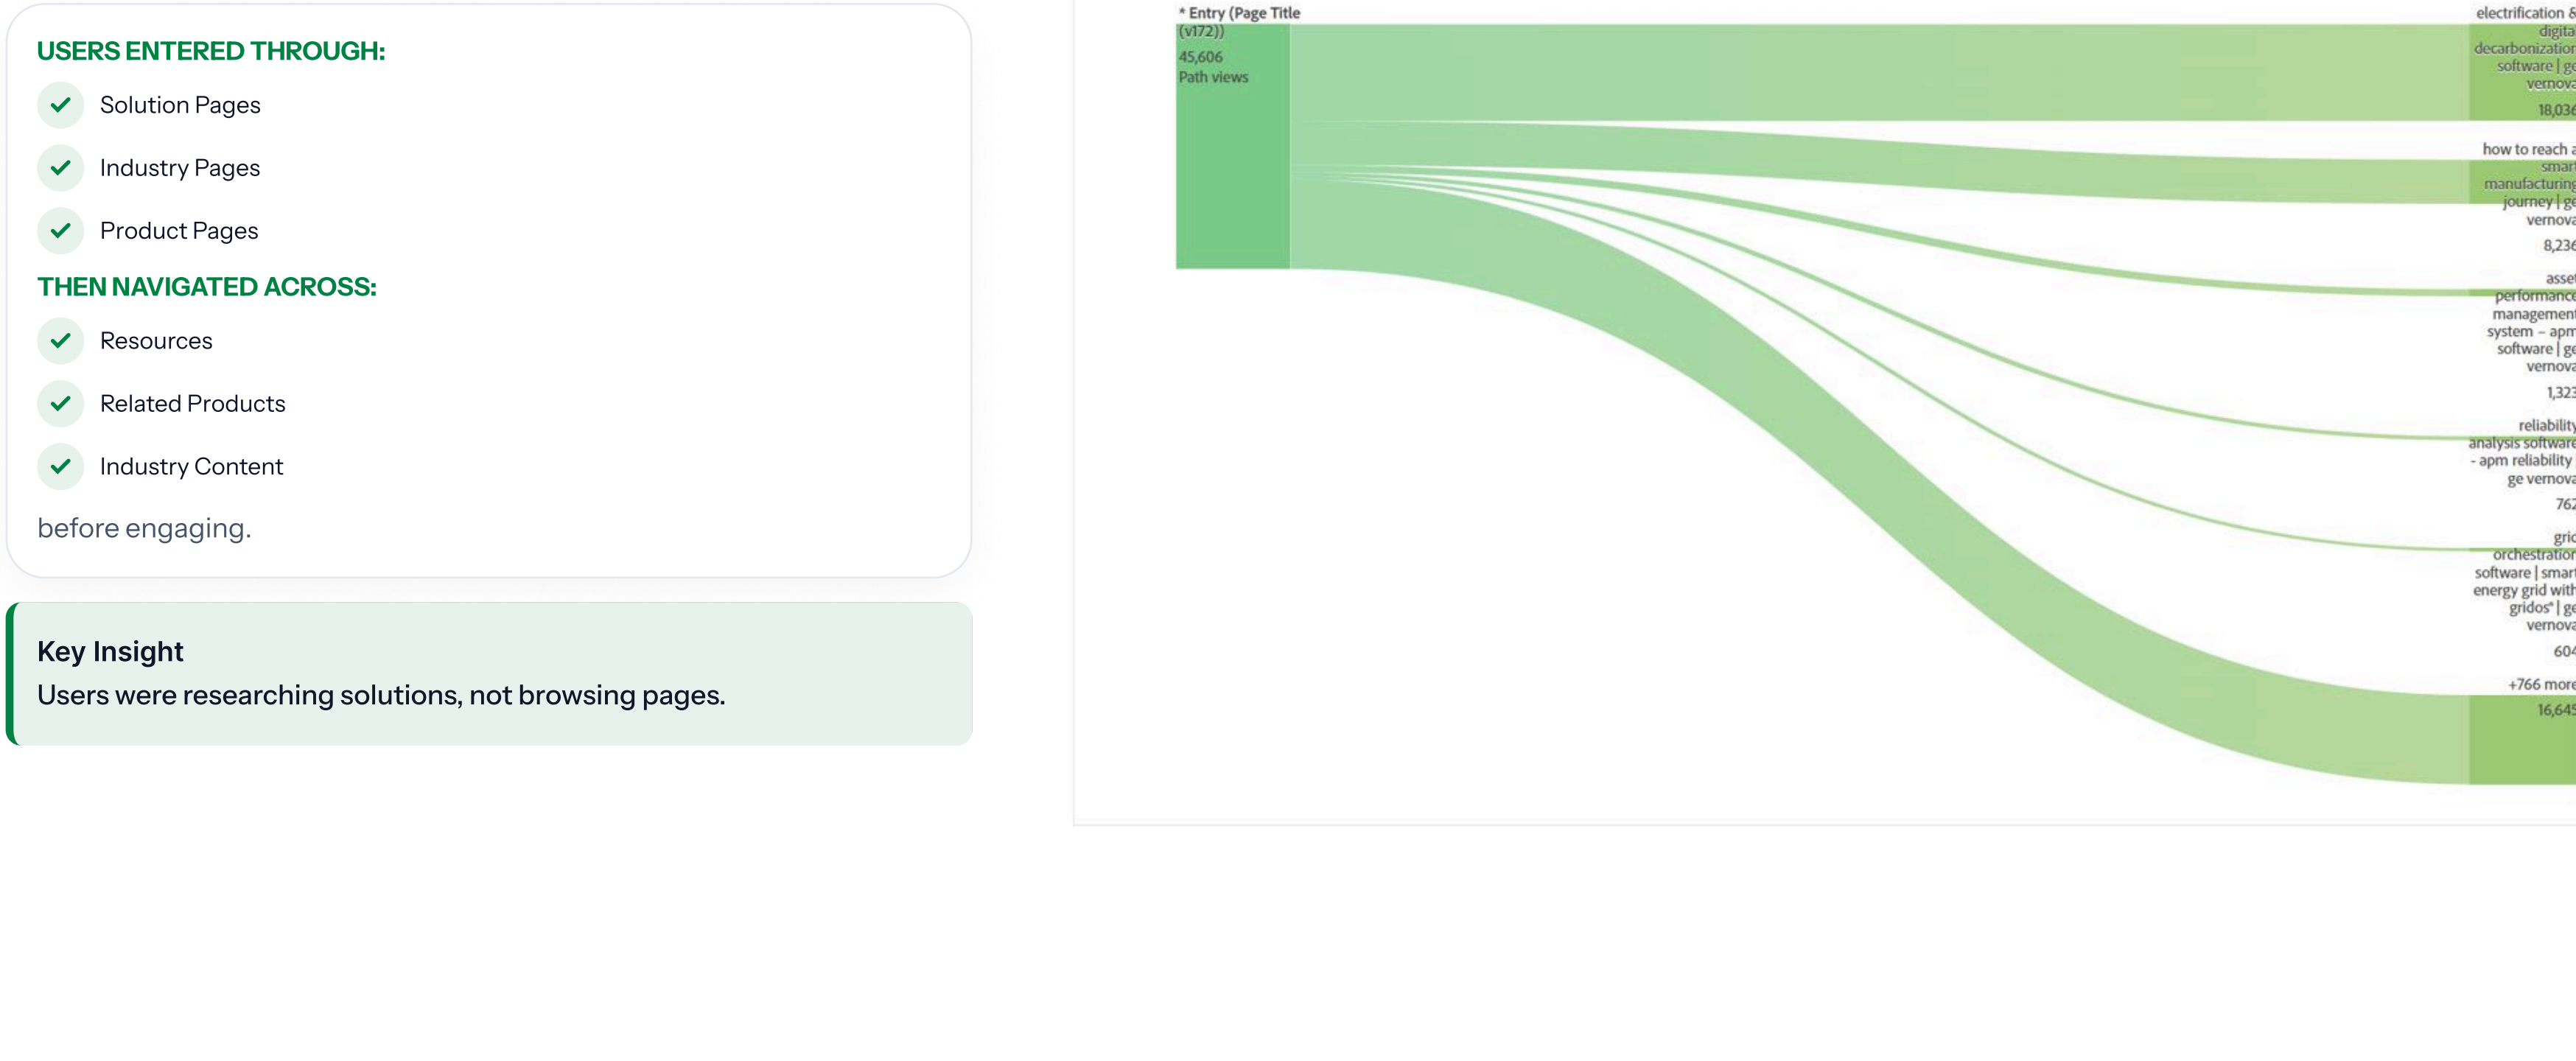

06 | RESEARCH & DISCOVERY

GE VERNOVA | Electrification Software UX

Content Discovery

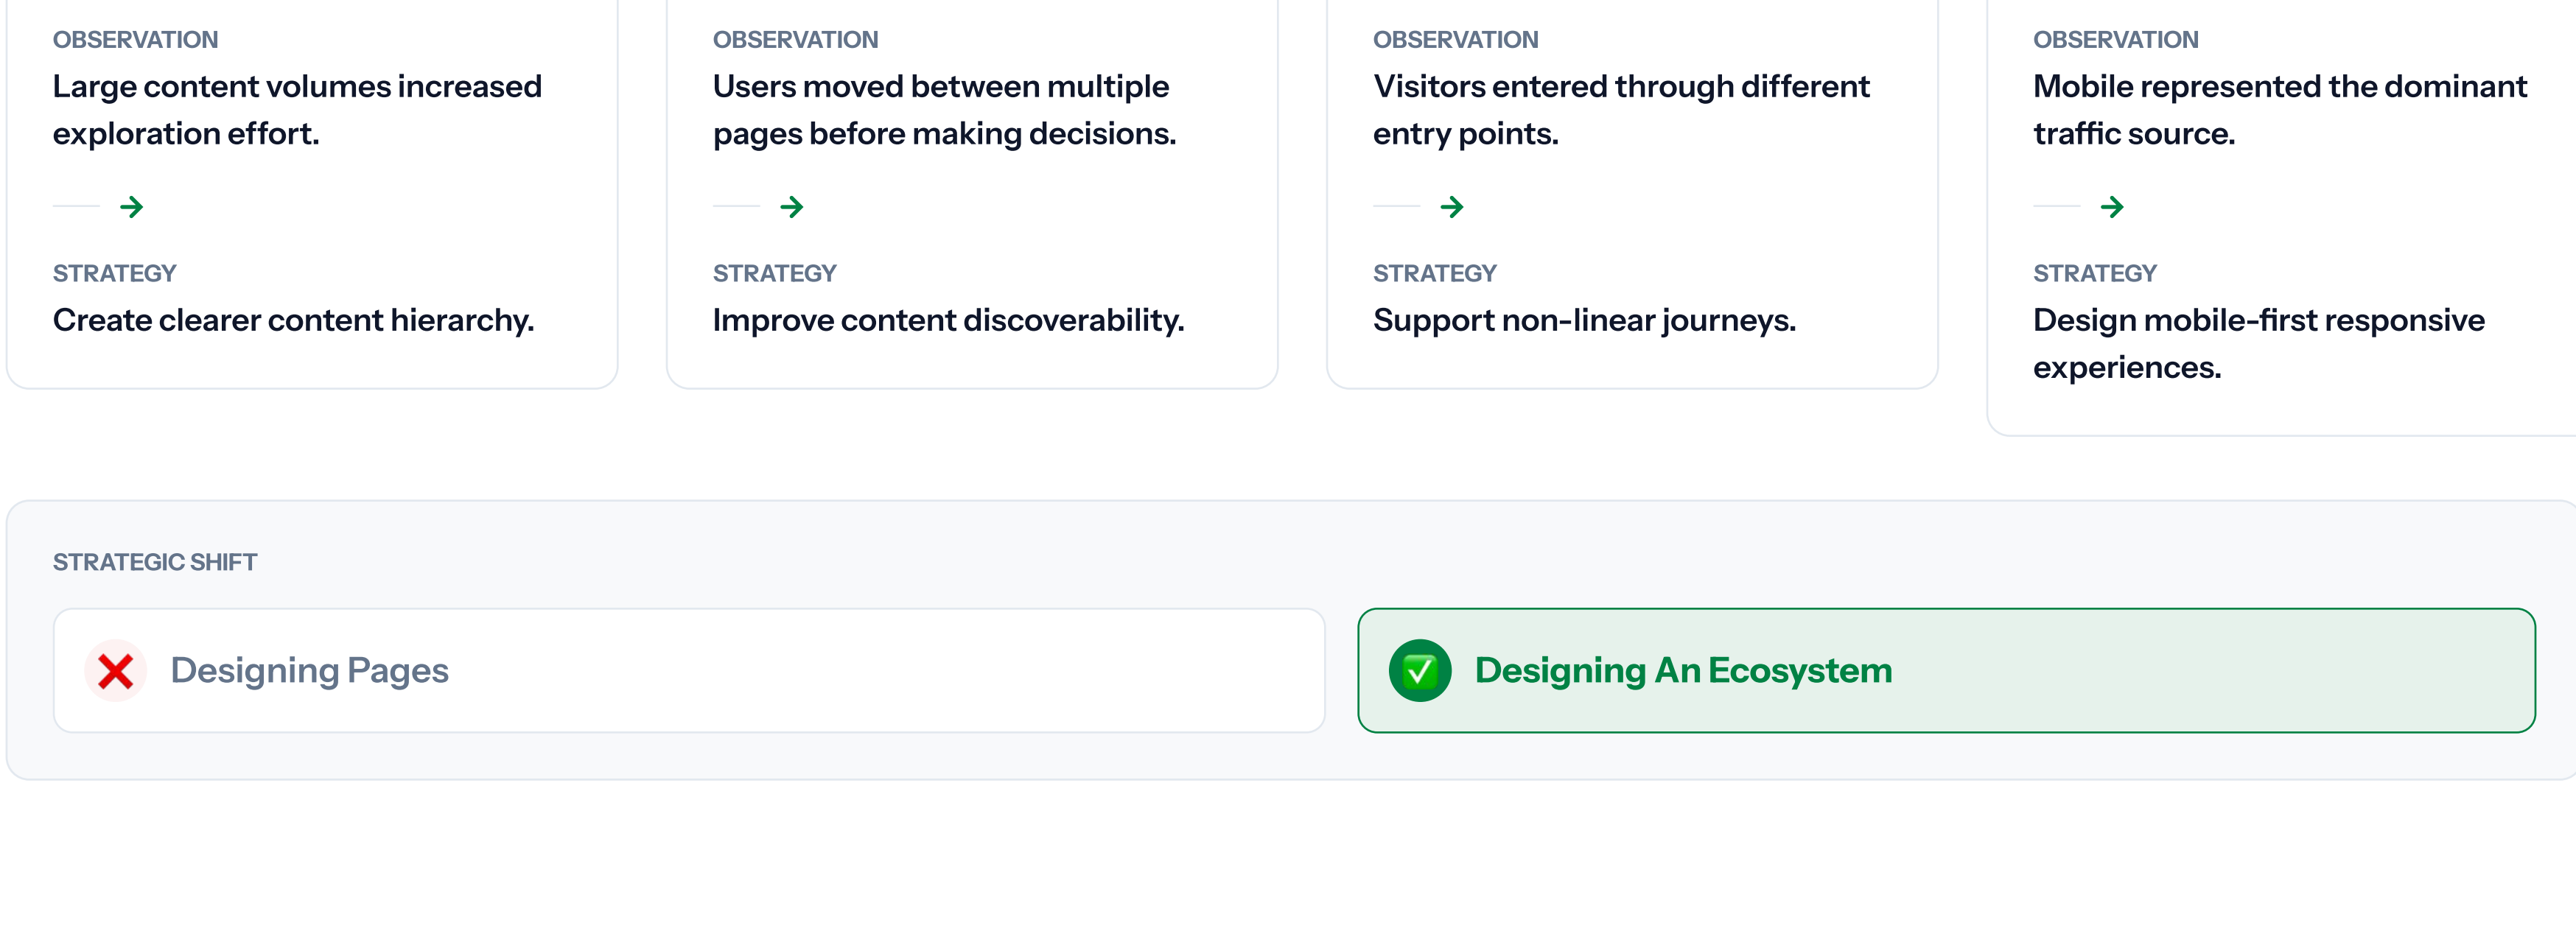

What We Observed

07 | STRATEGY

GE VERNOVA | Electrification Software UX

Turning Insights Into Strategy

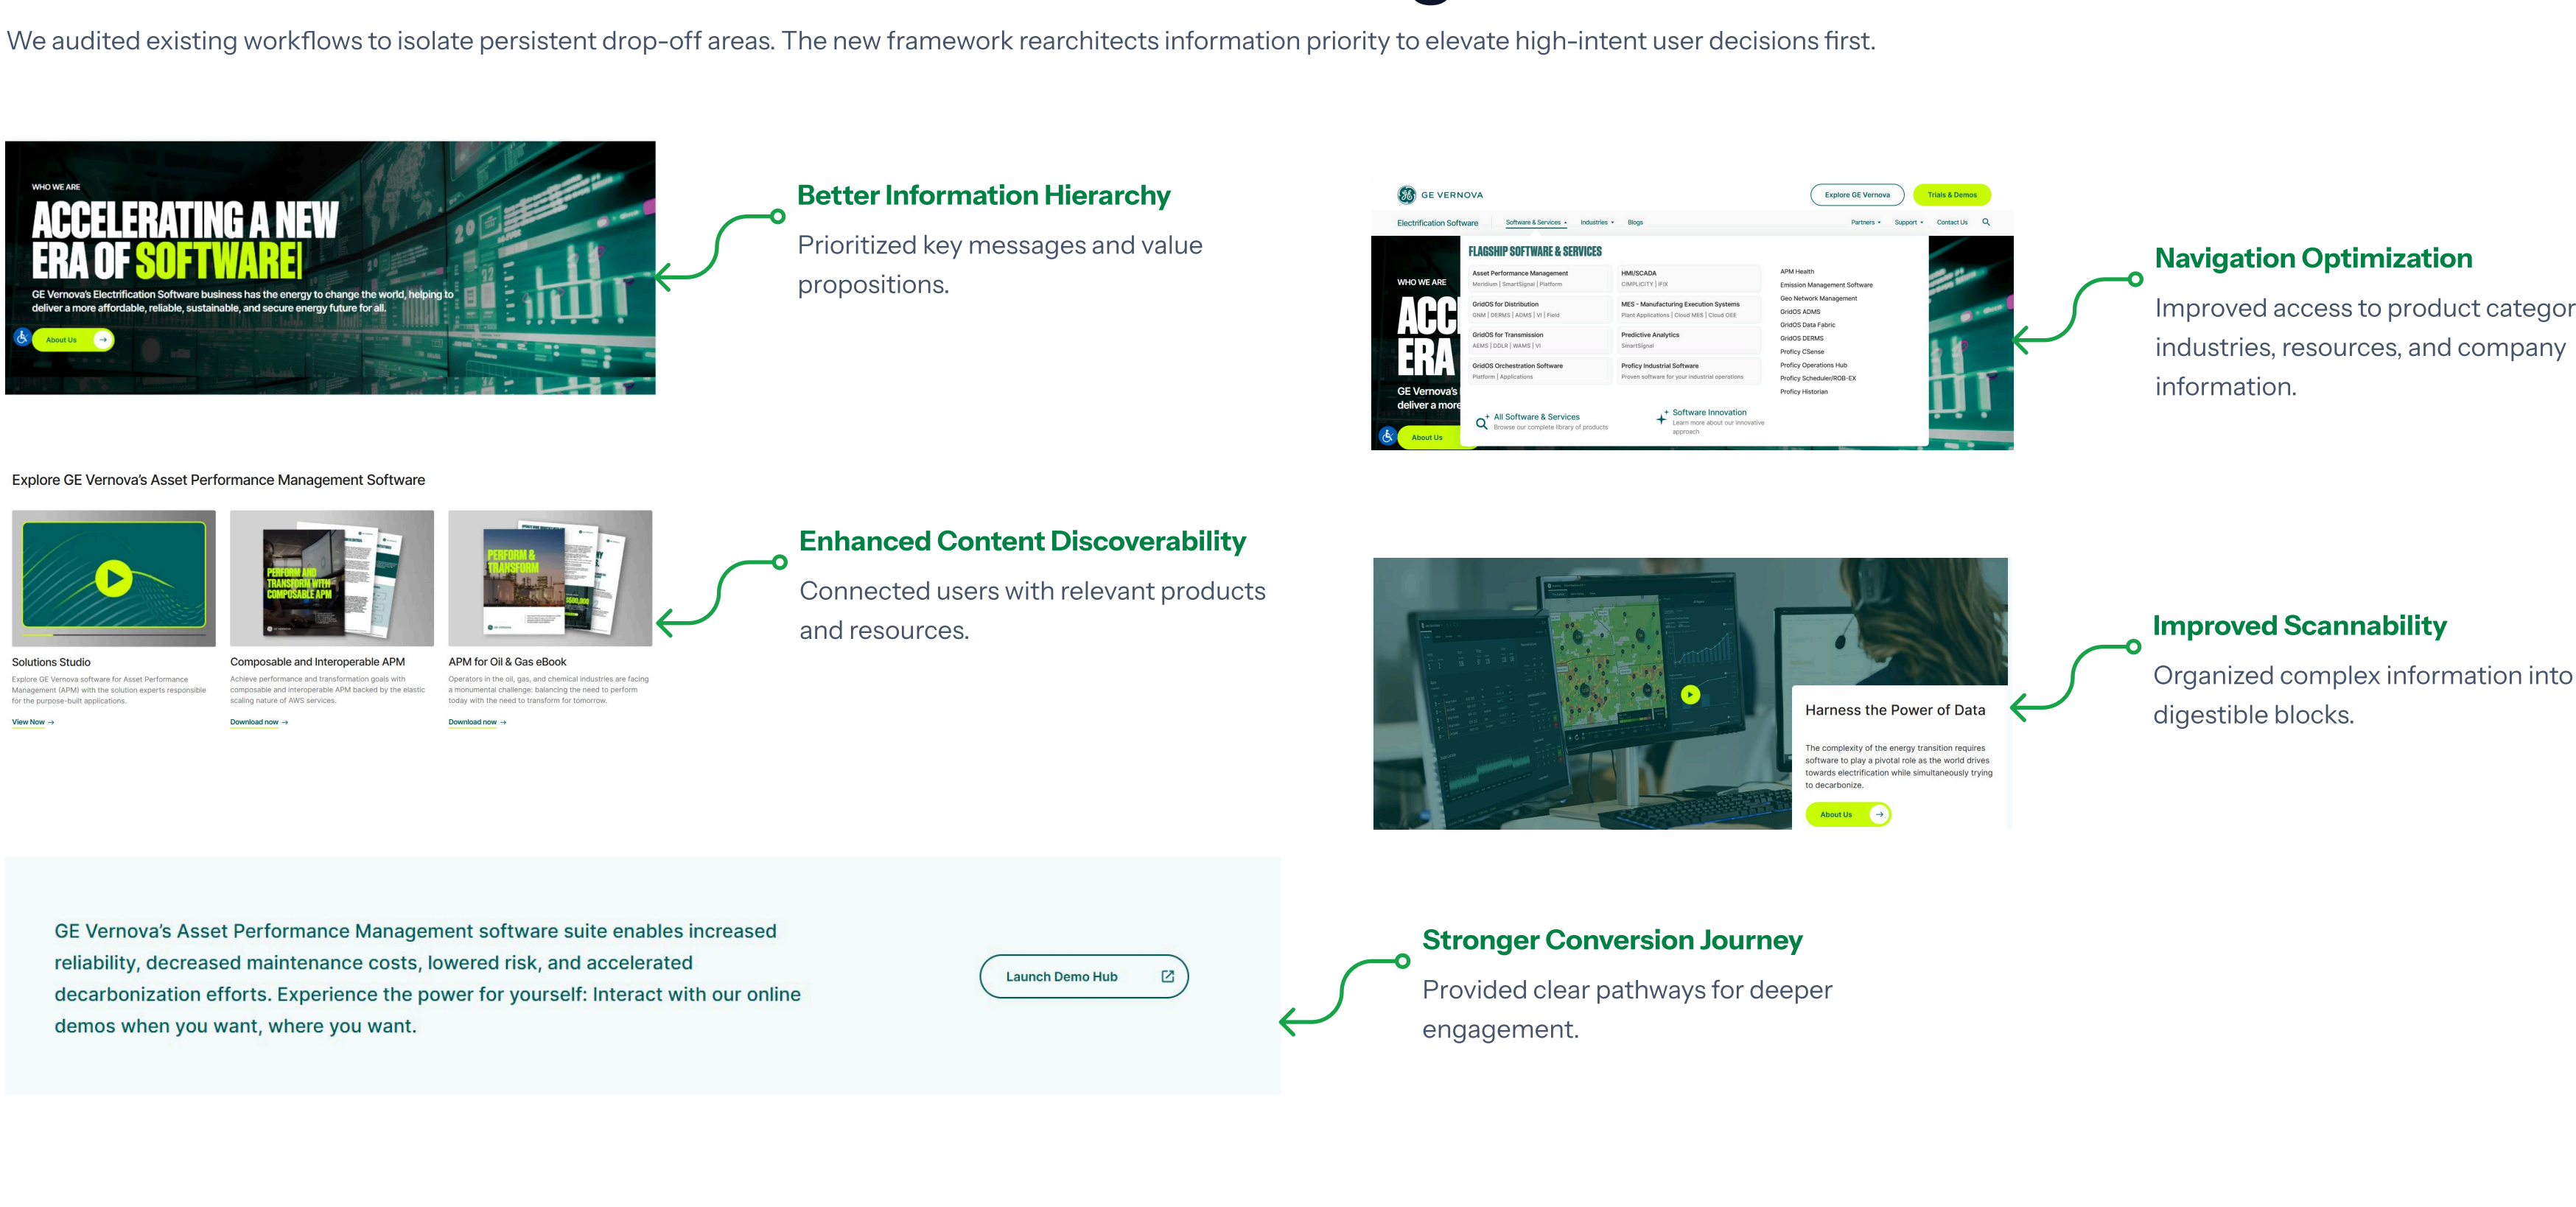

08 | UX CONSIDERATIONS

GE VERNOVA | Electrification Software UX

UX Considerations Behind The Redesign

We audited existing workflows to isolate persistent drop-off areas. The new framework rearchitects information priority to elevate high-intent user decisions first.

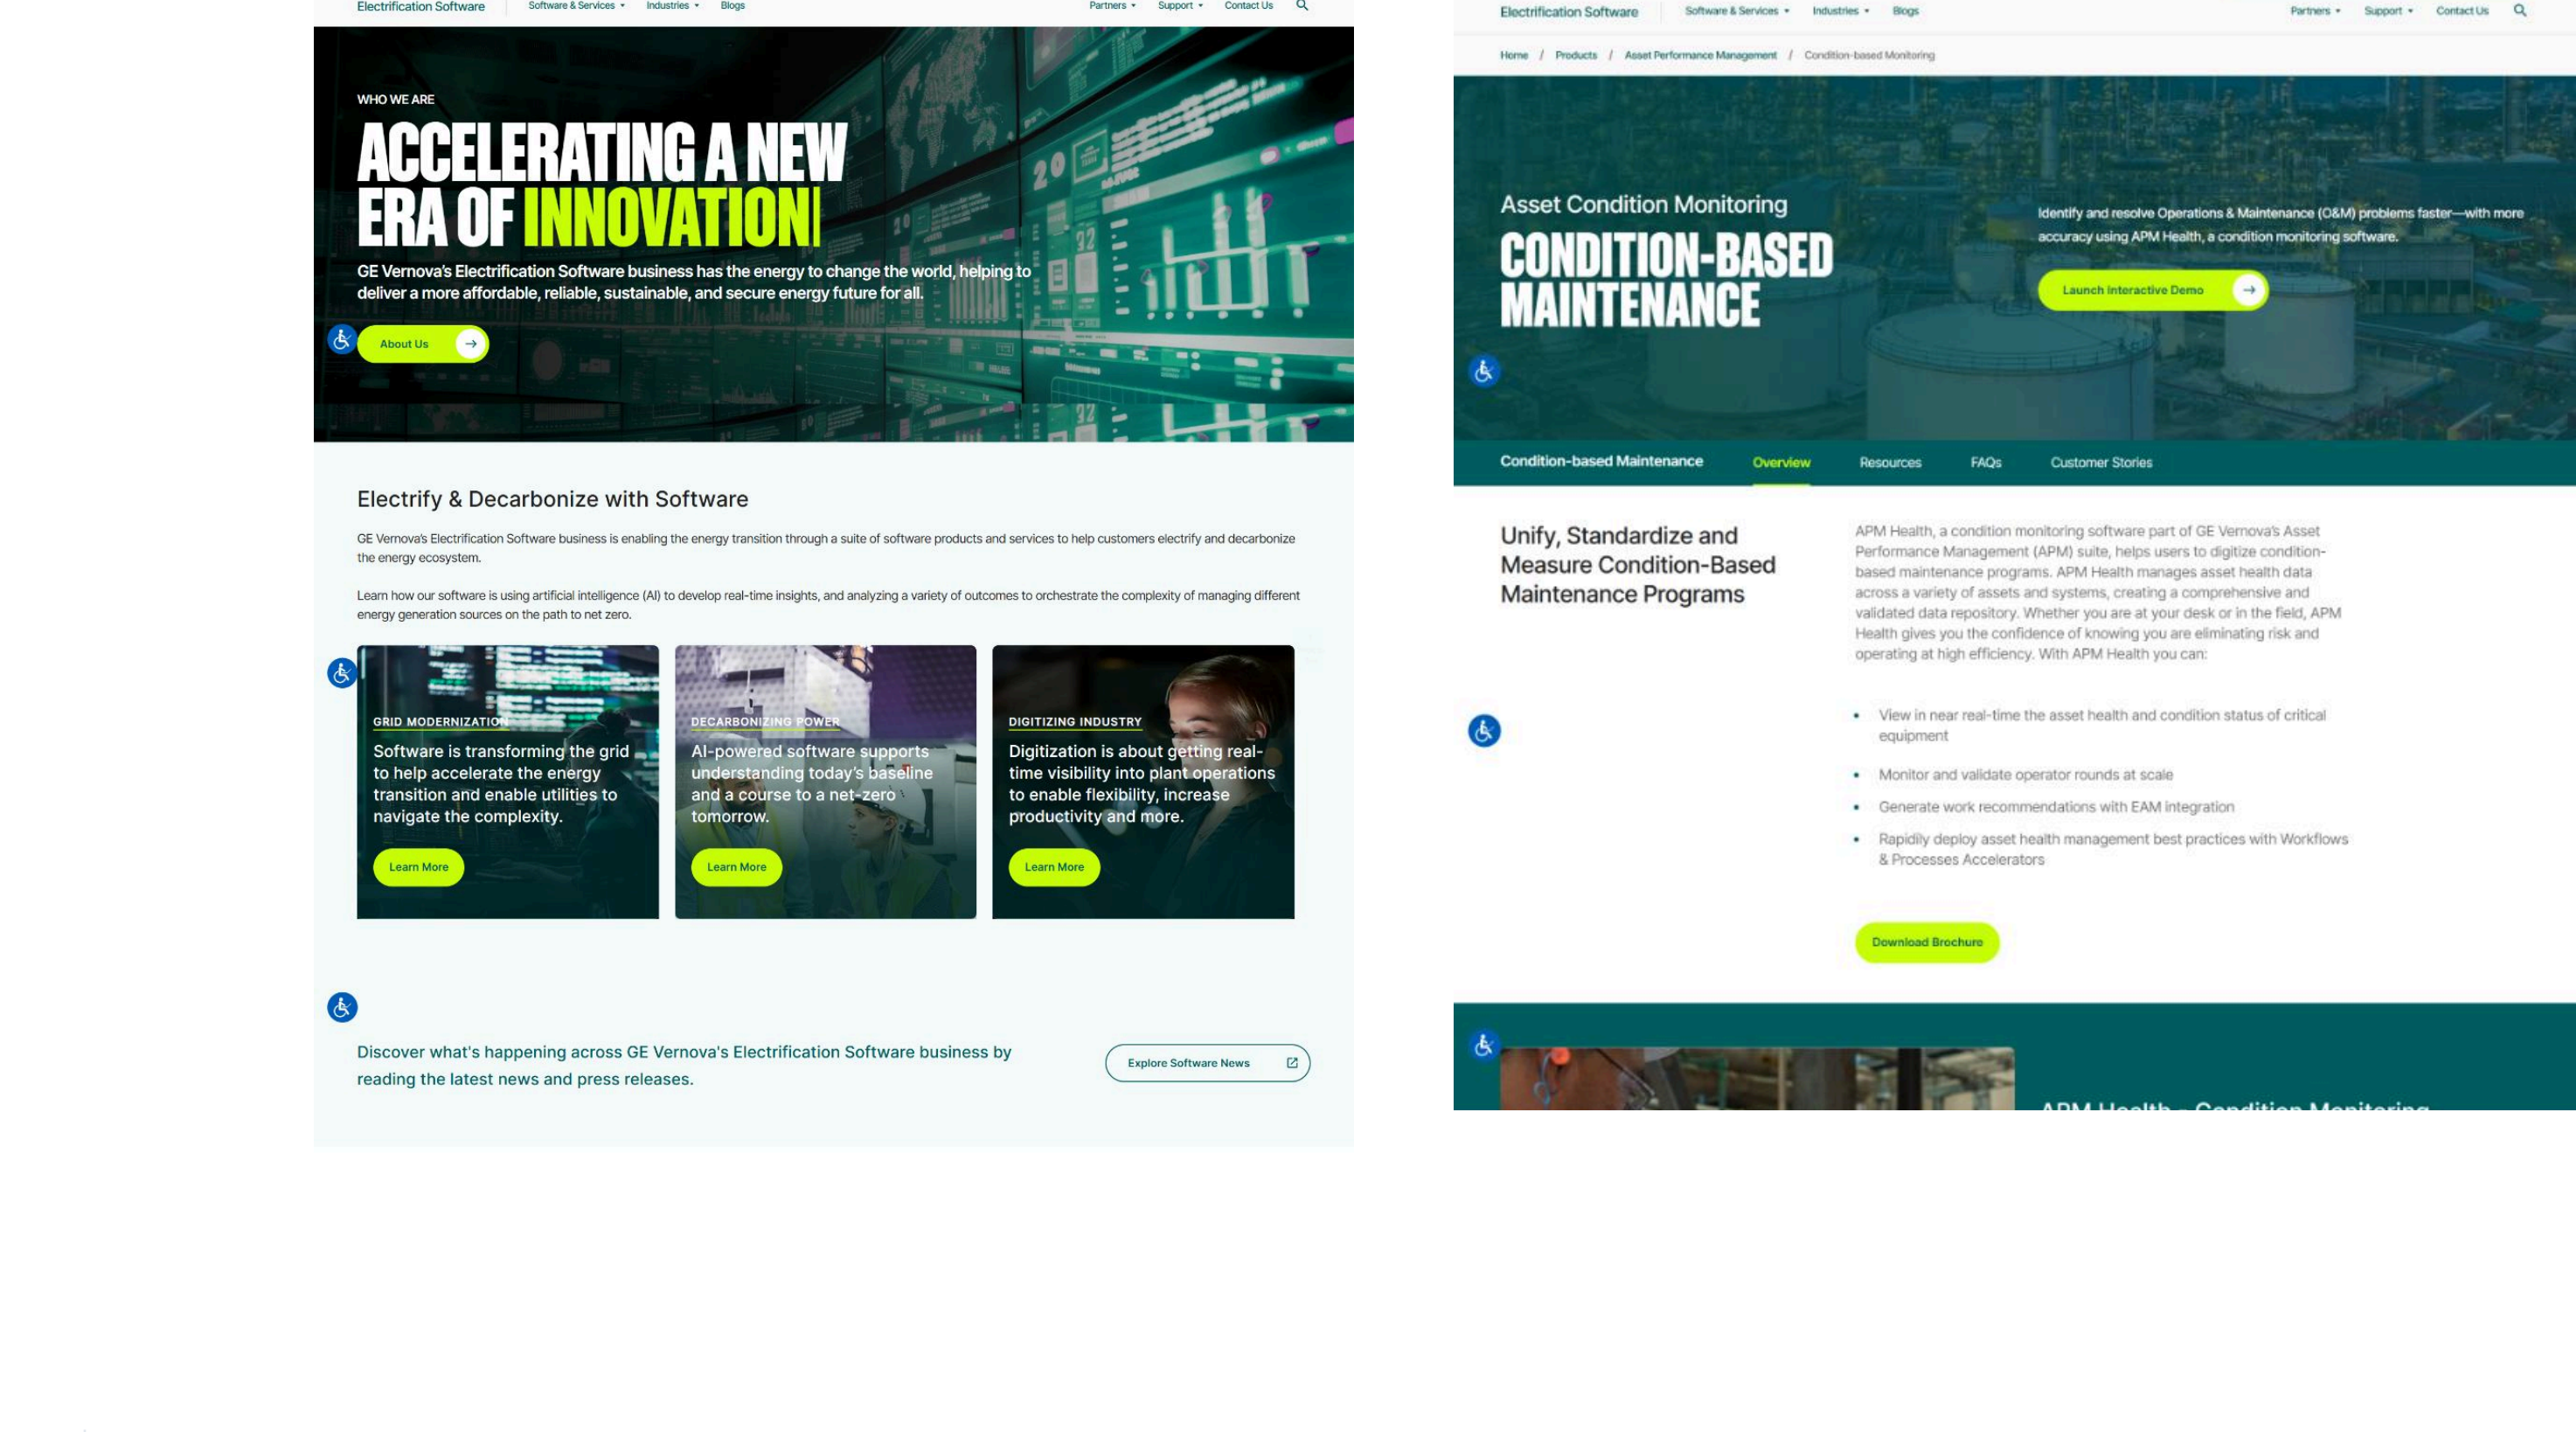

09 | FINAL DESIGNS

GE VERNOVA | Electrification Software UX

Final Production Designs

Multi-tiered design system templates rendered consistently across responsive screen widths.

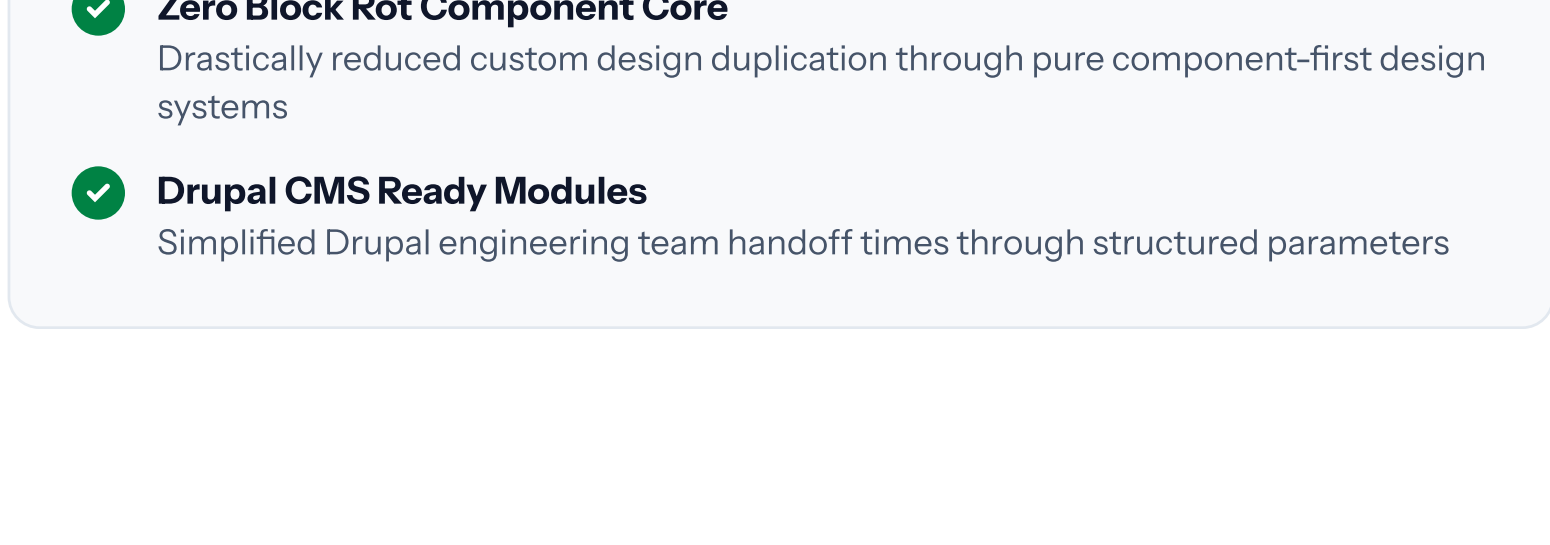

10 | IMPACT & LEARNINGS

GE VERNOVA | Electrification Software UX

Impact & Learnings

We unified the marketing suite and simplified component logic. Product managers, local leads, and developer resources can now construct high-impact screens fast.

CRITICAL PROCESS DRIVERS
